## PROMINENT PARTICIPANTS IN STATEHOOD CONVENTION.

## SINGLE STATEHOOD ADVOCATES ELATEDIT

Believe Oklahoma City Convention Has Put Quietus on Movement for Separate Statebood-Delegates Appointed to Carry Memorial to Washington.

REPUBLIC SPECIAL. Oklahoma City, Ok., July 12.-The results of the interterritorial single statehood convention, as viewed the day after, are en-tirely satisfactory to all concerned. The triumph of the nonpartisans and Democrats was the repudiation of the Hamilton statehood bill in the convention memoria and the firm, earnest plea made to Congress for immediate and joint statehood without special legislation.

It is believed that the overwhelming demonstration of sentiment, so far as the Territories are concerned, will forever settle the issue of separate statehood. It is believed that the demonstration will have the effect of putting a quietus on the movement for a separate statehood convention at Muskogee, which had been called to be held at the Creek Nation me tropolis the latter part of this month. The Oklahoma City Single Statehoo Convention was such an overwhelming success in numbers, intelligence and representative citizenship, that it is reason-

encess in numbers, intelligence and representative citizenship, that it is reasonable to believe that the separate statehood contingent will conclude it folly to advocate their cause further.

It was the impression yesterday that while Delegate McGuire was finally defected in the most important feature of the convention, that of framing the memorial and resolutions to Congress, he had otherwise triumphed in the convention. It is now known that in the permanent chairmanship McGuire was twice disappointed sorely. It was his prime desire that C. G. Jones of Oklahoma City be selected as presiding officer, and that the selection of John Embry as chairman gave the controlling power of the convention to the Flyon Republicans and Democrats, if the matter may be viewed from a partisan standpoint.

The selection of C. G. Jones as chairman of the new Single Statehood Executive Committee, however, is regarded as favorable to the McGuire interests in case statehood is not secured at the next session of Congress. The general belief obtains in the Territories, however, that admission will be attained at the coming session of the national legislature.

The delegates selected to present the

mission will be attained at the coming session of the national legislature.

The delegates selected to present the single statchood convention's resolutions at Washington is made up as follows:
Okabona -C. M. Barnes, Guthrie: Henry Laken El Renc, C. G. Jones, Oklahoma City, Thomas Poyle Perry, B. P. Burnett and D. P. Marum, Woodward; W. H. Anderson, Lawton, R. L. Williams, Durant, R. A. Lowrey, Kingheler, C. F. Barrett, Shawnes.

Thomas, North District, Pred Parkinson, West District, A. C. Cruce, West District, C. E. Hunter, South District, A. E. Perry, South District, Ed McKenna, Central instatch.

Charles Ahle, Formerly of St. Louis, Said to Have Obtained \$500 From New York Broker Under Threats to Publish Compromising Article.

REPUBLIC SPECIAL

New York, July 12.—In the inquiry into the conduct of Charles H. Ahle, who is to appear in court to-morrow to explain the charge made against him by Edwin M. Post, a stock broker, of attempting to ex-tort \$500 from him, Assistant District At-torney Krotel has learned how easy it is for some men to get money from wealthy society persons, even if the article for which they hand out their dollars is not in

The allegations against Ahle, who cam here from St. Louis two years ago, and who is a solicitor for the Society Editors' Association of No. 888 Fifth avenue, is that he demanded the money from Mr. Post, ostensibly as a subscription for a work entitled "America's Smart Set." to be issued by the organization, but really, Mr. Post says, as a price for preventing a weekly publication from printing an obnoxious article concerning his private

WARKED BILLS Ahle's arrest followed a prearrange

plan by which detectives overheard a con versation which took place in the washroom of the Stock Exchange and follow-ing the passing of five \$100 marked bills from Post to Ahle.

One of these whom Mr. Krotel had be-fore him today was M. E. Wooster, man-aging editor of the Society Editors' Association, and who, with Charles S. V is a promoter of the organization.

He employed Ahle to get subscribers for "America's Smart Set," and he declared he was I nignorance that Able or any other persons had ever used threats that subscriptions might be had.

But he opened a new line of thought for the Assistant District Attorney when he told him of his constant with "Fads and

Fancies."

Wooster says under oath that the subscription to this work, which was to be very claborate, was \$1,500, and that he himself had obtained most of the subscribers, there being 100 in all.

By his agreement with Colonel Mana, he said, he was to get one-half of all the money turned in, which, as the figures show, was about \$150,000. This wast sum of money was subscribed by the society people of New York, Newport and vicinity.

In discussing the arrest of Ahle, Wooster told Mr. Krotel that Ahle was authorized to get \$1.000 for the work. "America's Smart Set," if he could, and that he had made several contracts at that figure.

PAID FIVE HUNDRED.

Mr. Krotel was informed to-day that a prominent musician, now traveling in the West, had sent word to a friend here that he had been forced by threats to pay \$500 to a man who, he thought, might be Ahle. He added that if he was, he would come to this city to prosecute.

#### NO TETANUS CASES DEVELOPED

St. Louis Establishes New Record in Treatment of Fourth of July Accidents.

With ninety-two cases treated at the city dispensaries on July 4, not a case of tetanus has developed. This is due to the preventives used by Chief Physician

cherck and his assistants. Tetanus usually develops within ten days. Doctor Scherck stated yesterday that he believed that all danger had been passed. All the cases, he said, were doing nicely and many of the patients had entirely recovered. The record made this year by the dis-

pensary is considered the more remarkable by physicians, when two years ago sixteen deaths resulted from fifty-six cases treated-almost % per cent, Doctor Scherok introduced the antitetanus treatment last year, and out of thirty-seven cases treated no tetanus developed. With such a successful record, the three

city dispensaries, handled ninety-two cases on the last Fourth because of a number of the last routin because of a number of patients being sent to them by doctors who had studied Doctor Scherch's method of treatment St. Louis's record, the doctors say, is shead of any other city in the handing of Fourth of July accidents and preventing tetanus.
